Dear eDAC Secretariat

Re: .edu.au Governance and Policy Review

I write to provide comment as part of the public review being undertaken in relation to .edu.au domains. We are more than satisfied with the current policy and management of .edu.au domain names and do not want to see change.

We would oppose any move to widen the scope of eligibility to entry. Entities that are currently not eligible are ineligible for good reason, and have access to other more suitable domain names.

Yours sincerely

Vicki Tuchtan
